GOVERNMENT TO SEIZE AND OPERATE MINES AND PROTECT ALL MEN WHO DESIRE TO WORK

Fourteen Per Cent Wage Increase Will be Paid Workers in Seized Workings; Cabinet Officers Say They Expect Many Mine Owners to Put Scale in Effect Voluntarily.

NO GENERAL PLAN FOR FEDERAL CONTROL

By Associated Press.

WASHINGTON, Nov. 28.—Seizure of bituminous coal where the owners do not show a disposition to cooperate in increasing production and use of troops to protect all miners who desire to work has been decided upon by the government in an effort to end the bituminous coal strike, it was stated today officially.

In mines seized by the government, the 14 per cent wage advance agreed upon by the Cabinet on Wednesday and rejected by the miners will be put into immediate effect it was said.

Cabinet officers expected many mine owners to put into effect voluntarily the 14 per cent wage increase.

Whether the mines of those refusing to do so would be seized was not made clear, but it was said there was no general plan for government control; that each individual case would be decided on its merits.

COAL SITUATION CRITICAL IN WEST WHERE STORMS RAGE

Shortage Acute in Many Small Cities and Towns, With Actual Suffering in Some.

By Associated Press.

CHICAGO, Nov. 28.—Cold weather, with snow and sleet storms, today had spread over the Middle and Southwest and rendered more critical the fuel situation brought about by the strike of bituminous coal miners. In many small cities and towns the coal shortage was acute, with actual suffering the prospect in some.

In the large producing coal fields of Illinois, Indiana, Ohio, Pennsylvania and West Virginia, the miners apparently were firm in their determination not to return to work until some wage settlement has been reached. In fact, some district officials of the United Mine Workers in West Virginia predicted that many men who had returned to work would walk out again today.

With no prospect of an immediate resumption of production in sight and no indication of what the next step by the government toward providing fuel would be, following breaking off of miners-operators negotiations at Washington, efforts of Governor Allen of Kansas to obtain volunteers to mine coal and the announcement by Governor Gardner of Missouri that he would call a conference of governors of coal producing states unless the government acted today, attracted attention.

NEGOTIATIONS END WHEN MINERS REFUSE TO ACCEPT INCREASE

Abrupt Close Follows All-day Attempt to Reach Agreement in Wage Controversy.

By Associated Press.

WASHINGTON, Nov. 27.—An abrupt end came late today to all attempts to settle the nation-wide coal strike by peaceful agreement.

Miners and operators spent a bleak Thanksgiving afternoon in embittered debate over the government proposal for a 14 per cent wage increase made last night by Fuel Administrator Garfield, rejected it and every other proposal that was forthcoming and then dissolved sine die.

Participants went home tonight and where the break left coal strike conditions no one of them, miners or operators would say. Likewise in official quarters there was silence.

Acting President John L. Lewis, of the Mine Workers, scored the government roundly at the conclusion of the conference. So did William Green, secretary of the Mine Workers.

Operators, though accepting the government proposal, definitely in a letter of explanation to Dr. Garfield which they made public intimated that the government refusal to allow price increases would bear reconsideration.

It was behind closed doors that the coal situation reached its climax today. There was much heated oratory but G. W. Guthrie of Pittsburg acting chairman of the Operators committee described the parliamentary procedure succinctly as he came out. The operators by a prearranged plan notified the miners' committee for the central competitive field of their acceptance of Dr. Garfield's plan.

This the mine workers promptly voted down. In turn the miners put forward a counter proposal that Secretary Wilson's suggestion for a 31.6 per cent wage increase be granted and this the operators flatly refused. For the third time the operators renewed their formal offer of arbitration and this the miners voted down, unanimously and adjournment was voted.

"The operators are pretending to accept Dr. Garfield's proposal," Mr. Lewis said, "but as they do it they state they are unable to operate many of their mines under it. It would be foolish for us to attempt to make an agreement unless miners are to be given work.

"Our position is unchanged. We hold the United States government cannot break its word. The pledge of Secretary Wilson to grant us a 31 per cent increase must be redeemed. In my opinion Dr. Garfield and the cabinet have committed the most colossal blunder in the history of our nation.

WILL STAND FIRM ON 14 PER CENT RAISE—GARFIELD

Protestations of Miners Cannot Alter Decision, Fuel Administrator Says.

By Associated Press.

WASHINGTON, Nov. 28.—Mines taken over by the government will be operated by the Fuel Administration but details as to compensation to the owners were not disclosed. While various federal agencies were preparing to carry out the government program, Fuel Administrator Garfield reaffirmed in even more emphatic terms his position that profiteering on the part of either labor or capital will not be tolerated.

"The public will not be asked to bear the increased burden of higher prices for coal nor increase in wages of a special class of workers," he said. Pointing out that his conclusions had been reached after careful and exhaustive research Dr. Garfield declared "neither the protestations of the miners against the 14 per cent wage advance nor the insistence of the operators that they be permitted to charge a higher price for coal would induce him to alter his decision that a 14 per cent increase was the amount necessary to bring the miners' wages to the level of living costs and that the operators could pay this advance without increasing prices to the public."

PITTSBURG COAL COMPANY IS WILLING TO COOPERATE.

PITTSBURG, Nov. 28.—"The Pittsburg Coal company is willing and ready to cooperate with the government in its plan to increase the production of coal and our mines are open and ready for operation as soon as the men want to go back to work," said W. K. Fields, president of the company when informed of the government's intentions.

"Our mines are in good shape and we can resume operations in short order" added Mr. Fields, whose company is the most important producer of bituminous coal in Pennsylvania.

The announcement from Washington was received in silence at the offices of District No. 5, United Mine Workers. Officials gathered there said President Murray had not yet returned from the Washington conference and they were in the dark as to actual developments.

REPORTS MINERS' OFFICIALS RECALLING MEN FROM WORK.

CHARLESTON, W. VA., Nov. 28.—T. L. Lewis, secretary of the New River Operators' association, announced this afternoon that 12 mines were reported down today in the New River field and that the miners had walked out at the direct solicitation of the officials of District 29, United Mine Workers.

SUDDENLY STRICKEN, JOHN R. KAUFFMAN DIES IN GIGLIOTTI STORE

Master Carpenter for B. & O. Succumbs to Attack of Heart Malady, Wednesday Night.

A few minutes after he had greeted his daughter, returning home from college for the Thanksgiving holiday, John R. Kauffman, master carpenter on the Connellsville division of the Baltimore & Ohio and one of the best known railroad men on the division, was stricken with an attack of heart disease Wednesday evening and died suddenly at 8:30 o'clock in the store of Mrs. A. Gigliotti in South Pittsburg street, to which he had gone to summon aid from home by telephone. He died before a physician could reach the store.

Miss Martha Kauffman, the daughter, is a student at Mount Union college, Alliance, Ohio. She arrived home on the 7:30 Baltimore & Ohio train, in company with Miss Margaret Kidd, daughter of Dr. and Mrs. A. E. Kidd. She went to the Kidd home in the North Windsor apartments and from there telephoned to her father of her arrival. He told her to wait there; that he would come to meet her. Soon afterward he joined his daughter and they started for the Kauffman home in Green street. On the way Mr. Kauffman became ill. He had not been in the best of health for a month but his condition was not thought serious by his family. Leaving his daughter to continue her way home he went to the physician's office. Walking from the office he started homeward again. He got as far as the Gigliotti store when he was taken very ill. He made his way into the store and asked that his home be called, giving the telephone number. Before a reply could be received he collapsed and died.

Mr. Kauffman's illness of a month or so had not been of such a character as to interfere with his daily work. He performed his usual duties on Wednesday and seemed in his usual health when he started down town.

John Roscoe Kauffman had been master carpenter of the Connellsville division since the death of W. S. Schenck, who held that position for many years. He had charge of building and bridge construction on the division and was regarded as a very capable official. He entered the service of the Baltimore & Ohio railroad 32 years ago, being from the beginning in the maintenance of way department. He succeeded to the master carpentership five years ago. He had a wide circle of friends, on the railroad and elsewhere, and his sudden death caused a shock.

Mr. Kauffman was born October 17, 1871, and was just past his 48th year. He was a son of Noah and Nancy J. Kauffman. He was married on November 7, 1900, to Miss Mollie E. Turney, of Uniontown. The widow, their daughter, Miss Martha, his mother and three brothers, E. F. Kauffman, Gary, Ind.; O. W. Kauffman, Jefferson street, Connellsville, and W. G. Kauffman, Wills road, Connellsville, survive. He was a member of the Methodist Episcopal church, General Worth lodge of Odd Fellows and the Baltimore & Ohio Veterans' association.

Funeral services will be held at the home Saturday at 1:30 o'clock, with Rev. G. L. C. Richardson, pastor of the First Methodist Episcopal church, and Rev. R. C. Wolf of West Newton, a former pastor here, officiating. Interment will be in Hill Grove cemetery.

LADY ASTOR, AN AMERICAN GIRL, ELECTED AS MEMBER OF THE BRITISH PARLIAMENT

PLYMOUTH, ENG., Nov. 28.—Lady Astor, American-born wife of Viscount Astor, was elected to Parliament from Sutton division of Plymouth in the balloting November 15. The result was announced after a count of the ballots here this morning. Her vote was 14,495, defeating her nearest competitor by over 5,000 votes.

Lady Astor's philanthropic endeavors here during the last 10 years brought her considerable support as well as her espousal of anti-liquor legislation which won her a large vote among the women.

The campaign attracted wide attention, due in a large measure to Lady Astor's nationality, her unconventional electioneering methods and her barbed and witty replies to questioners.

AMERICA'S RISE PREDESTINED, SAYS REV. G. W. BUCKNER

Pastor's Sermon at Thanksgiving Service Proves Inspiring Discourse.

THE ATTENDANCE IS LARGE

Lack of Light and Power During Service Do Not Interfere Much; Offering Is Turned Over to Ministerial Association Fund; Baptists Sing.

America's rise to a position foremost among the nations of the world may have been predestined from the beginning, in the view of Rev. George Walker Buckner, pastor of the Christian church, as expressed in the annual Thanksgiving Day sermon yesterday at the First Baptist church. The nation's isolated location and her vast resources were referred to as some evidences that the Infinite had a plan for the what is now not only the leading republic but the leading nation of the world. His sermon theme was based on the words of the psalmist, "He Hath Not Dealt So With Any Nation," those applying at the time written to the Jews but applicable in this modern day to America.

The sermon was a profound exposition of the problems and perplexities that confront the nation and through it the world and also a call for liberty loving people to rally to the support of law and order in the preservation of its integrity.

The service was well attended. Interruption of electric light and power, due to the rise in the Youghiogheny river, which interfered with the operation of the condensers at the West Penn power plant interfered to some extent. The lights went off while Rev. Buckner was speaking and there was no power for the pipe organ in the concluding music.

Rev. I. G. Nace, pastor of the Reformed church and president of the ministerial association, presided and pronounced the invocation, in the absence of Rev. G. L. C. Richardson. Rev. J. H. Lambertson read the President's Thanksgiving proclamation. Rev. J. S. Showers was not present and the reading of the Scripture lesson was assigned to Secretary W. F. Underwood of the Baltimore & Ohio railroad. Rev. J. L. Proudfit offered prayer. The sermon followed. Rev. Dr. E. B. Burgess pronounced the benediction. Miss Jessie Rhodes was at the organ and the Baptist choir sang several hymns and an anthem, "Ye Shall Swell In the Land."

The offering of the day, it was announced, would go into the fund of the ministerial association.

THE COAL STRIKE MUDDLE.

Washington has certainly made a muddle of the coal strike situation Instead of bringing about a solution that would end the contention between the operators and miners, the breach has been widened, the government has been charged with bad faith in the proceedings, and the negotiations have been broken off in bitterness and anger on part of the miners The full resumption of the mines is made an event of the more remote future. Meanwhile the public will be obliged to suffer increasing inconveniences, losses and hardships due to a shortage of coal, All because of the dunderhead blundering by idealists and opportunists who have been attempting to settle the strike according to vague theories and with an eye to political advantage, rather than according to common sense facts and conditions.

If the calling of a conference of the operators and miners had been conditioned upon the miners returning to work after the strike order had been recalled, the production of coal would have been continued and the conference could have proceeded with more deliberation The public would have been spared the distress resulting from the diminishing supply of coal a consideration which was close to view in the wrangling that characterized the conference from its beginning

Lacking foresight and good judgment, if not at the same time attempting to make political capital out of the situation the first act of the Administration following the annulment of the strike order was to call a conference This gathering made no more progress toward a settlement than proffer compromise proposals which were wide apart as to the percentage of increase offered and demanded Meantime coal production has been reduced more than 50 per cent through the continued idleness of miners who have not obeyed the spirit of the mandate of the court by returning to work

At that stage in the conference proceedings when it appeared that a compromise settlement could be reached, the miners' representatives were stimulated to resist any concession from their offer by the attitude of Secretary of Labor Wilson who declared the advance to be granted must not be less than 31 per cent. At this juncture Ex-Secretary of the Treasury McAdoo, candidate for president to succeed his father-in-law, regarding the time as opportune to boost his candidacy, obtruded himself into the situation As a bid for the miners' vote he made the sensational announcement that, based upon his secret and confidential knowledge of the income tax returns filed by the mine operators—which he was forbidden by law to reveal—he declared the profits of coal had been making "shocking and indefensible profits," ranging "from 15 to 2,000 per cent" Supplementing this statement McAdoo's successor in office, Secretary Glass, although also forbidden by the law from revealing information contained in confidential reports to his department, published broadcast the statement that bituminous mine operators in 1917 made what might be termed fabulous profits, the general average being "from 100 to 150 per cent on invested capital"

With the spirit and temper engendered in the conference by these fool breaks, the only thing needed to completely remove all possibility of an early settlement being reached was supplied by Dr Garfield, Fuel Administrator, who delivered to the conference on Wednesday evening the ultimatum of the government that the wage increase must be limited to 14 per cent and the operators denied the privilege of advancing the prices of coal to absorb any part of the increased cost of production The conference broke up in an ugly mood when the miners refused to accept Garfield's proposal

Thus has the government made such a muddle of the situation that no one can venture a prediction as to how or when a settlement will be reached and normal conditions in the coal mining industry restored. But that is not surprising. Muddling situations has been the great achievement of the present paternalistic socialistic Administration

---

Having become attorney for a movie combination it was but natural that Crown Prince McAdoo should employ movie publicity methods in boosting his candidacy for apostolic succession.

The members of the strike conference did not seem to have much of the Thanksgiving Day spirit in their breasts, even if filled with choice cuts of turkey breast.

There are lesser lights of New Freedom Democracy than ex Secretary McAdoo who have found the income tax reports to be of use under certain circumstances, political and otherwise Instances of such use are not unknown even in the 23rd Revenue District.

If you curbed your appetite yesterday you can give thanks today too

---

Compared with their demand of 50 per cent the miners seem to look upon Dr. Garfield's 14 per cent ultimatum as nothing to the next best class.

Hasn't Foxy Carranza been permitted to dodge issues about long enough?

With the football games out of the way the schools and colleges can now resume business

---

Isn't it about time for Washington to demobilize the conferences that don't confer?

You may not have thought of it but four weeks from today will be the day after Christmas What have you done to prepare for the day before?

CHURCH SURVEY SHOWS BAD ROADS CUT ATTENDANCE

Lack of Development in Some Sections Also Due to Unimproved Highways.

Special to The Courier.

HARRISBURG, Nov. 28—Bad roads prove a great hindrance to churches, the Pennsylvania Rural Survey section of the Interchurch World Movement of North America has announced in a communication to the State Highway Department. Rev. Irvin E. Deer, state supervisor, is soon to issue a report covering the results of an investigation made in Pennsylvania counties, in which an effort has been made to learn what effect bad roads have on religion. This rural survey is being made by the Interchurch World Movement in the 2,968 counties in the United States.

Recently a conference of 100 religious leaders representing every denomination in Susquehanna county was held in Montrose. Supervisor Deer proposes publishing a report covering that conference. Several paragraphs, which will be included in the statement, are of particular and timely interest to good roads enthusiasts and those persons whom the good roads fever has not yet seized.

The extracts from the report come from the chapter entitled, "Roads and Religion." One paragraph is as follows:

"In the minds of many the relation between roads and religion does not seem a very close one, and yet when the representatives of the Susquehanna churches answered the question 'What conditions, if any, affect the regularity of attendance at service?' 85 per cent replied that bad roads prove the greatest hindrance in their program of service."

Another paragraph is as follows:

"Where there are no good roads nor railroad connections the country is poorly developed. In eight of the townships 34 per cent of the farms are rented. The housing and living conditions are far below normal. Other conditions may be factors in this backwardness, but poor roads take the leading part."

The report goes on further to show that the completion of hard-surfaced thoroughfares results in increased value of real estate. A paragraph covering this phase is as follows:

"Where there is an attempt at better road conditions, every phase of life shows improvement—religious, economic and educational. An illustration of this is the situation in Brooklyn and Latrop township, Susquehanna county, where a six mile stretch of macadam was built. Six years after the completion of this road there was a rise of from 24 to 50 per cent in real estate value, due to the great accessibility of markets, and the possibility of hauling heavier loads from the railroad. This road facilitates the consolidation of schools as practiced at Brooklyn; and all gatherings of a religious or a social nature are more easily attended."

Susquehanna county voters at the primary election to be held in May will vote on a proposition to bond the county for $500,000 for road construction purposes. Indications are that the bond issue will be approved by a large majority.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to Keep Her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.—Adv.

By-Product Plant Starts Up.

The Wisconsin Steel company has begun production of by-product coke at its South Chicago plant. This is designed to make steel independently of the coke and beehive districts and it removes practically the last used of the beehive coke in the Chicago district.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well.

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 6th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

CITY FIREMAN L. A. M'KINNON FOR NERV-WORTH

Convincingly Reports That He is Much Improved in Every Way.

One of Sidney's best known and most highly esteemed citizens is the giver of the following statement. L. A. McKinnon has been a member of the city fire department for 20 years and what he says has weight and force.

Nerv-Worth Co.—I have used some of your Nerv-Worth and find it very beneficial. I had stomach trouble. Gas formed in my stomach causing much bloating. My blood circulation was bad and at times I had dizzy spells. Since using Nerv-Worth I am much improved in every way.

L. A. M'KINNON

Sidney, Ohio.

In talking to the Nerv-Worth demonstrator about the matter Fireman McKinnon added to the above that his sleep was much more continuous and restful than before he began taking Nerv-Worth, making it unnecessary for him to get up as often in the night as before.

The Connellsville Drug Store and the Broadway (Scottdale) sell Nerv-Worth.—Adv.

Itching, Irritating Skin

Worst Forms of Skin Trouble Quickly Relieved By Inexpensive Treatment.

If you suffer with any skin trouble and the itching seems unbearable, do not think you have to use some greasy, unpleasant ointment to get relief. Try Hokara a pure and pleasant antiseptic cream—guaranteed to contain no grease and has cleansing ingredients which vanish into the marred skin to do their healing and does not stay on the skin only to look bad and soil linen.

Hokara's power to relieve quickly any irritation of the skin and make it soft, white and beautiful might be called miraculous.

Minor skin troubles, such as pimples, blackheads, acne, barber's itch, etc., seem to disappear magically and Hokara with its potent healing qualities is a successful treatment in ending chronic skin diseases like salt rheum or eczema. It is possible for anyone to try Hokara and be convinced of its merit—simply because A. A. Clarke and druggists are selling a liberal sized jar for only 35c. It is sold on a guarantee of satisfaction or money back.—Adv.

At the Theatres

THE SOISSON.

"THE RIDER OF THE LAW"—A five-part feature, starring Harry Carey, is being shown today, also a two reel selected comedy.

Monday and Tuesday May Allison will appear in "Fair and Warmer."

Dorothy Phillips will be seen soon in "The Right to Happiness."

THE PARAMOUNT.

"LOVE AND HONOR"—With Ellen Cassidy and Stuart Holmes in the leading roles, is being shown today.

"Love, Honor and (?)" is essentially a romantic drama, but its plot has been studded here and there in its narration by the gripping thrills that always are associated with aviation and in depicting the aeroplane incidents. Director Miller has furnished some real drama in the air.

Much of the action of "Love, Honor and (?)" takes place in the open, and for these scenes the producer has "shot" some of the prettiest exteriors offered by the many estates comprising the homes of the wealthy suburbanites of New York. Stuart Holmes and Ellen Cassidy, who are starred in this production, are given opportunity to do some strong dramatic work, and they do. One noticeable point of interest in this Miller production is in the role portrayed by Holmes. It is the first time that Stuart Holmes has appeared in a straight role on the screen and he handles his part with the same marked ability and finesse that has characterized his work for the past years.

ARCADE THEATRE.

The show at the Arcade theatre the last half was well received by capacity audiences. The Hal Hoyt company scored a big hit with their musical travesty, "The Two Old Tools." Two Irishmen furnished most of the amusing situations and kept the audience in an uproar of laughter. The musical numbers were new and catchy, the chorus well gowned. The Gypsy Orchestra under the direction of Prof. G. Andies was a treat to music lovers. In addition to some popular numbers the Gypsies played several classical numbers very capably. This is a big time attraction and was very much appreciated.

Next week the management of the Arcade theatre has procured an attraction undoubtedly its most costly ever brought to this city, "The Passing Parade," featuring Billy Purl, who scored such a big hit here last year. Mr. Purl has surrounded himself with a cast of 20 people. He carries a carload of scenery and electrical effects; in fact, everything that goes to make a big production. This show has been playing one night stands, and the management has been fortunate enough to have Mr. Purl condense the show somewhat in order to play this theatre.

Mu-col Quickly Destroys Deadly Catarrh Germs

Proves Mu-col Makes Miserable, Despondent Catarrh Suffers Well Again in Short Time at Trifling Cost.

For Twenty Years Was Advertised Exclusively to the Medical Profession.

Here is the only sure way to get rid of Catarrh with all its obnoxious symptoms.

Go to your druggist today and ask for a small package of MU-COL. Dissolve half a teaspoonful of this powerful antiseptic powder in a teacupful of warm water and stir till dissolved. Then, by snuffing up from the palm of the hand or by using nasal douche, allow the MU-COL solution to come into contact with the infected membranes.

You almost instantly feel the effect as its powerful germ-destroying properties are carried into every nook and crevice of the mucous membrane where the germs thrive and multiply, loosening up the congestion and accumulated deposits, which if not attended to now, will eventually threaten the existence of the membranes themselves.

For twenty years MU-COL was advertised exclusively to the medical profession. How well it has succeeded even in the most severe case of infected Catarrhal condition of the nose and throat is evidenced by the unstinted praise bestowed upon this truly wonderful discovery by the medical profession.

Only after being pronounced a complete success is it offered to the general public, and today any first-class drug store can supply you.—Adv.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and sooth and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

Serious Lingering After-Effects of Bad Sick Spell Finally Cleared Up By Taking Chasco-Vin.

"If I had only known about Chasco-Vin long ago I would not have had such a long drawn out spell.

Nothing seemed to reach the trouble until a drug clerk told me about the great results he was hearing right along about Chasco-Vin.

I was glad to try it and gladder still for what it accomplished. My cough is gone, I eat with relish and it straightened me out finally. It is actually wonderful the help I have obtained from Chasco-Vin." (Signed) Walter Seitz, 1016 Walnut street, Shamokin, Pa.

Greensburg Pastor Speaks.

Too many men have religion in their wives' names, Rev. Ben S. Johnson, pastor of the Christian church at Greensburg, told a body of 60 men assembled Tuesday evening for a banquet under the auspices of the Ale's Bible class of the local church, of which Rev. George W. Buckner, the pastor, is teacher. He meant that too much of the work of the church is left to the women. The relaxation on the part of men in church work that has been felt during the past four years is tending again toward normal, the pastor said. His subject was "Men and the Church." The banquet was served in the basement of the church by the members of the Philathea class and other church women. Barten M. Swartzwelder, class president, presided at the after dinner program. Remarks were made by Harry Restofski, superintendent of the Sunday school, who also introduced the speaker of the evening. Short talks were made also by Rev. Buckner and Rev. Benjamin Porter White, field secretary of the Children's Home Society of Pennsylvania. Jesse Barnes and Nathan Gilmore contributed vocal solos. The Sunday school orchestra played. As a whole it was a happy occasion.

A 10-Day Tube of Pepsodent

They Have Found the Way to Beautiful Teeth

All Statements Approved by High Dental Authorities

Dental science has found a way to combat film on teeth. It has been tested for years by able authorities in clinical and laboratory tests. Now leading dentists everywhere advise its daily use.

The method is embodied in a dentifrice called Pepsodent. This week we offer a 10-Day Tube to every home in this city, and we urge every home to get it. Let it prove itself.

Film is What Discolors

You can feel on your teeth a slimy film. It is ever-present, ever-forming. It clings to teeth, enters crevices and stays.

The tooth brush doesn't end it. The ordinary dentifrice cannot dissolve it. So it accumulates and may do a ceaseless damage.

Most tooth troubles are now traced to that film. And now it is known why brushed teeth still discolor and decay. The reason lies in that clinging film which the old cleaning methods omit.

Cause of Decay

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus the film is the teeth's chief enemy.

It Can Be Ended

Dental science has for years sought a way to end that film, and the way has now been found.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

The way seems simple, but it is not. Pepsin must be activated. The usual method is an acid harmful to the teeth, so pepsin long seemed impossible.

What has been found is a harmless activating method. Now pepsin can be applied twice daily and left between the teeth. And millions of teeth are now being cleaned as they never were before.

Watch the Effects

We ask you to watch the effects. Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Compare this method with the old. Read the facts about it. Then decide for yourself what is best.

Tartar and Stain

are based on film. This 10-Day Test will show you that they are avoidable. And so is tooth decay.

Look in Ten Days

See how white the teeth are—how they glisten. You can see that the film is gone. You will know that teeth can be kept forever whiter and cleaner and safer.

Dunbar

DUNBAR, November 29—Mrs. D. H. McGee and daughter, Marie Louise, of Uniontown, were over Sunday visitors of her husband's parents: Postmaster and Mrs. R. J. McGee of Franklin road. D. H. McGee was on a several days' business visit to Pittsburg and Mrs. McGee took advantage of his absence to visit in Dunbar.

Grover C. Keffer of Continental No. 2, roll-keeper for the H. C. Frick Coke company, at that plant, was visiting his parents, Mr. and Mrs. J. L. Keffer, of Keffers, Saturday. He has been having his vacation and added to its pleasures by this visit.

Miss Freda Thomas of Mount Braddock was visiting in Dunbar yesterday evening.

Work on Charles Harvey's new business block on Woodvale street between the railroads, is progressing finely and, from all indications, will be ready for occupancy by the new year. The front and north side are of brick and the other two sides of tile. The building will be two stories or more, the basement being used for a bowling alley, the first floor for a storeroom and the rest of the building for residence purposes. It will, when completed, make a decided improvement in the appearance of that portion of the town.

Uncle Sam could make a great improvement in weather predictions if he would suspend the present forecaster and fill his place with a person slightly afflicted with rheumatism. The latter would depend on his rheumatism to forecast storms and weather changes with a much greater degree of accuracy than the predictions of the present forecaster.

James Miller has moved his family from Mount Pleasant to the Blacka house on Ferguson road near Ferguson, and goes from there to Superba mines, where he is employed by trolley.

George P. Hughes, the well-known Tucker Run contractor and lumber dealer, was in Connellsville on business last Friday evening.

Miss Ada Carroll of Connellsville street was a Connellsville shopper Friday evening.

The West Penn Railways company has wisely decided to put a waiting station at Keffers and J. D. Ellenberger, who is master carpenter for the company, has the matter in charge. It is expected the station will be a reality before the holidays. No station along the trolley line will be more appreciated by the patrons of the company.

The last week has been an active butchering week in the Pechin and Keffers settlements, as many as 25 lusty porkers having been executed, thus lessening meat bills and insuring their owners plenty of prime meat. Among those who were in that fortunate number were Abraham Brooks, Orville Thorpe, C. W. Baker, C. H. Bryner, John Thorpe, Shepherd Gillespie, H. L. Brown, Huston Davids, Samuel Bryner, D. J. Provance and Mr. Tenaglia. Abraham Brooks filled the heaviest swine, it tipping the scales at 605 pounds.

Harry Baker of Ferguson road, who has been on the sick list for several days, is able for duty again.

Mrs. Bessie Dean of Ferguson is on the sick list this week.

Mrs. Harry Barnsworth of Ferguson, who had been on the sick list for several weeks, has recovered.

Rev. Harry L. Humbert, the popular pastor of the M. E. church, was in Connellsville on business Monday.

Prof. J. C. Baker, principal of the Pechin school, who had been traveling to and from his home at Dawson by trolley, has located at Mrs. Ada Seman's boarding house on Connellsville street for the winter, travel on the trolley cars during the winter being too uncertain.

Mrs. E. E. Miller of Keffers visited her daughter, Mrs. Ray Fowler, of Mount Pleasant, over Sunday.

Miss Mabel Lehman of Keffers was shopping in Mount Braddock Monday.

Among recent Connellsville shoppers were Mrs. C. W. Baker, Mrs. D. A. Keffer, Mrs. J. L. Keffer, Mrs. J. A. Leaman and Mrs. H. L. Brown.

Mrs. Mary Hardy of Hardy Hill has moved to Point Marion where she will make her home with her son, Isaac Skiles Hardy, who is employed there.

Mrs. Fred Colbert of Adelaide was visiting her mother, Mrs. Mary Bricker of Pechin, over Sunday.

Quite a number of high school boys from Pechin and the furnace attended the football game at Connellsville last Saturday and saw the D. T. H. S. boys defeated.

George Fred Baker, who is employed at Point Marion, spent last Sunday with his family at their home on Hardy Hill.

Mrs. John Woods of Connellsville attended the funeral of Jacob Breakiron last Friday.

The public schools are enjoying a two-day vacation this week.

The First Signs of Disease are a Poor Complexion, Weakness, Emaciation and Lack of Vitality.

The first sign of returning health is increase of flesh, strength and vigor. Body weakness, emaciation and lack of vitality simply means that certain substances like Iron, which go to make up the blood and nerves, have become exhausted, and to renew flesh, muscle and strength, the Iron must be restored. Dr. Chase's Blood and Nerve Tablets contain Iron in its most active and condensed form with such tonics as Nux Vomica, Gentian, Allon, Capsicum and Zinc Phosphide which makes them a powerful flesh and strength maker and a wonderful restorative to the nerves, imparting the tint of health to the weak, emaciated, convalescent and over-worked. The Business Heads of Wm. J. Moxley, State:

"We use only Moxley's "Dixie" Margarine on our tables and in our homes. We do not ask the public to use anything that we do not think is good enough for ourselves."

The Heads of this business surely know how pure and how wholesome and nutritious Dixie Margarine is. And here is one business at least that has a full sense of responsibility toward the Public it serves.

Your nose gets a pleasant sensation when you travel through this great Moxley Plant. Not only does everything look clean, but it smells clean. A housewife cleanses her utensils with hot water, but here everything is daily cleansed with live steam—pipes, churns, trucks, walls and floors, yes, even the clothes the workmen wear—are scalded into purity every day.

So that when Dixie Margarine finally rests in its long trays in the great cooling rooms, it is as sweet to the nose and as tasty to the tongue as any butter you ever ate.

Try it and you will buy it as long as you live.

Here is a picture of one of our great banks of pasteurizers by which Moxley's Dixie is made absolutely pure.

"If everything you ate were pasteurized like DIXIE, there would be very little sickness in the world. Ask your family physician how vitally important pasteurization is.

Born in 1839 Dr. Caldwell Still in His Office Daily

(Wonderful vigor of the founder of Dr. Caldwell's Syrup Pepsin. Millions now use his famous prescription

ALL physicians know that good health depends largely upon proper digestion and elimination, and that most sickness results from these causes. None knows this better than the "family" doctor, the general practitioner.

Dr. W. B. Caldwell of Monticello, Illinois, was and is a family doctor. The whole human body, not any small part of it, was his practice. More than half his "calls" were on women, children and babies. They are the ones most often sick. But their illnesses were usually of a minor nature—colds, fevers, headaches, biliousness—and all of them required first a thorough evacuation. They were constipated.

Dr. Caldwell in the course of 40 years' practice, for he was graduated from Rush Medical College back in 1875, had found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1892 he decided to use this formula in the manufacture of a medicine to be known as Dr. Caldwell's Syrup Pepsin, and in that year the preparation was first placed on the market. The picture of Dr. Caldwell that appears on the package was taken in that year.

The preparation immediately had as great a success in the drug stores as it previously had in the doctor's private practice. Today the third generation is using it. Mothers are giving it to their children who were given it by their mothers. Every second of the working day someone somewhere is going into a drug store to buy it, for Dr. Caldwell's Syrup Pepsin is selling at the rate of over 6 million bottles a year.

DR. W. B. CALDWELL TODAY
Born Shelbyville, Mo., March 27, 1839. Began the manufacture of his famous prescription in 1892.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

His great success is based on merit, on repeated buying, on one satisfied user telling another. There are thousands of homes in this country that are never without a bottle of Syrup Pepsin, and the formulator of that prescription is fortunately living to see its wonderful success.

Women, children and old people are the ones most benefited by Dr. Caldwell's Syrup Pepsin. It differs from physics in that its action is mild and gentle and free from griping. It does not weaken. And while it is promptly effective in the most obstinate case, it is safe for a tiny baby as it contains no narcotics.

Every drug store sells Dr. Caldwell's Syrup Pepsin at 50c and $1 a bottle, the latter the family size and sufficient to last months. Keep a bottle in your home. Where many live someone is sure to need it quickly.

DUQUESNE BEATS H. S., 6-0; FUMBLE PROVES DISASTROUS

Though Outweighed, Locals Put Up Good Game and Visitors Have Hard Fight.

In the last game of the season, C. H. S. lost to Duquesne University high 6-0 in a hard fought battle yesterday afternoon on Fayette Field. The field was not so muddy as might have been expected after the heavy rain the day before and the game was a good one.

Duquesne outweighed C. H. S. 20 pounds to a man and expected to romp away by a much larger score and although playing the offensive game all four periods were held for a single touchdown, secured in the second quarter when Bufano fumbled and a lineman, breaking through, scooped up the ball and ran 30 yards for a touchdown. Duquesne, however failed to kick the goal.

Duquesne made six first downs to C. H. S.'s two in the first half and had the ball in Connellsville territory most of the time. The second half was nip and tuck all the way, neither side able to cross the other's goal line and the breaks about even.

Capt. Francis was unable to play on account of injuries and with Danner also out of the game the backfield was weakened so Menefee played a half.

"Jim" Strawn played a good game both on the offense and defence and made a pretty 35-yard run on an intercepted forward pass in the last quarter but was unable to carry the ball over for a touchdown.

There was no individual stars, every man playing a hard game, and but for Bufano's fluke the game would have ended 0-0.

Duquesne was penalized three times for offside plays and tripping. When the final whistle blew Connellsville had the ball on the Duquesne 10-yard line.

A large crowd was on hand to see the closing game and everyone was well satisfied with the showing the C. H. S. gridders made.

The line-up:

Duquesne		C. H. S.

THE "BLUES" Caused by Acid-Stomach

Millions of people who worry are despondent, have spells of mental depression, feel blue and are often melancholy, believe that these conditions are due to outside influences over which they have little or no control. The nerves in system becomes deranged. Digestion suffers. The blood is impoverished. Health and strength are undermined. The victim of acid-stomach, although he may not know the cause of his ailments, feels his hope, courage, ambition and energy slipping. And truly life is dark—no world much to the man or woman who has acid-stomach!

NEEDS BOXERS

Billy Carter Can't Get Sparring Partners.

Billy Carter, the local boxer who is matched to meet Eddie Dorsey of New York, at Cumberland, Md., on December 10, has requested his manager, Duke Barry, to round up all available sparring partners so that Carter will have plenty of boxing during his training.

Here is an opportunity for the young men about town, who judging by their conversations, have in them the making of champions, to get in touch with Barry at once. He is located in the Second National Bank building.

Barry hopes to hear from all these boys who would like to box with Carter for the sport and exercise, or those who would like to follow up boxing as a vocation. Carter is in training and wants men to box with him every evening from now on.

SON BRINGS AID TO MOTHER IN DISTRESS

Less than a month ago Mrs. M. J. Staley, 2613 N. 18th St., Phila., had such poor blood circulation that her fingers became numb and useless. Today, after taking Tanlac, she can use her hands freely, her nerves are much stronger and she feels years younger. She says:

"I'm certainly glad I took Tanlac, which my son brought me, as my appetite increased, my food digests right and I haven't felt so vigorous in years. Tanlac is really marvelous."

The stomach regulates the condition of the blood. Tanlac tends to act directly on the stomach, expelling from it the impurities and restoring it to a strong, healthful condition. Tanlac is called the "Master Medicine" because it masters when others fail. It is now sold here by Keighley's pharmacy, Connellsville Drug Co., F. H. Harmening.—Adv.

Born in 1839 Dr. Caldwell Still in His Office Daily

Wonderful vigor of the founder of Dr. Caldwell's Syrup Pepsin. Millions now use his famous prescription

ALL physicians know that good health depends largely upon proper digestion and elimination, and that most sickness results from these causes. None knows this better than the "family" doctor, the general practitoner.

Dr W. B Caldwell of Monticello, Illinois, was and is a family doctor The whole human body, not any small part of it, was his practice. More than half his "calls were on women, children and babies. They are the ones most often sick. But them illnesses were usually of a minor nature—colds, fevers, headaches, biliousness—and all of them requirec first a thorough evacuation. They were constipated

Dr. Caldwell in the course of 40 years' practice, for he was graduated from Rush Medical College back in 187", had found a good deal of success in such cases with a prescription of his own containing simple laxative herbs with pepsin. In 1892 he decided to use this formula in the manufacture of a medicine to be known as Dr. Caldwell's Syrup Pepsin, and in that year the preparation was first placed on the market. The picture of Dr Caldwell that appears on the package was taken in that year

The preparation immediately had as great a success in the drug stores as it previously had in the doctor's private practice. Today the third generation is using it. Mothers are giving it to their children who were given it by their mothers. Every second of the working day someone somewhere is going into a drug store to buy it. for Dr Caldwell's Syrup Pepsin is selling at the rate of over 6 million bottles a year

Its great success is based on merit, on repeated buying, on one satisfied user telling another There are thousands of homes in this country that are never without a bottle of Syrup Pepsin, and the formulator of that prescription is fortunately living to see its wonderful success.

Women, children and old people are the ones most benefited by Dr. Caldwell's Syrup Pepsin It differs from physicians in that its action is mild and gentle and free from griping It does not weaken And while it is promptly effective in the most obstinate case, it is safe for a tiny baby as it contains no narcotics

Every drug store sells Dr Caldwell's Syrup Pepsin at 50c and $1 a bottle, the latter the family size and sufficient to last months. Keep a bottle in your home. Where many live someone is sure to need it quickly

DR. W. B. CALDWELL TODAY
Born Shelbyville, Mo., March 2nd 1839
Began the manufacture of his famous prescription in 1892.

In spite of the fact that Dr Caldwell's Syrup Pepsin is the largest selling laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it If you have not, send your name and address for a free trial bottle to Dr W B Caldwell 511 Washington St Monticello, Illinois.

DUQUESNE BEATS H. S., 6-0; FUMBLE PROVES DISASTROUS

Though Outweighed, Locals Put Up Good Game and Visitors Have Hard Fight.

In the last game of the season, C H. S. lost to Duquesne University high 6-0 in a hard fought battle yesterday afternoon on Fayette Field. The field was not so muddy as might have been expected after the heavy rain the day before and the game was a good one Duquesne outweighed C H S 20 pounds to a man and expected to romp away by a much larger score and although playing the offensive game all four periods were held for a single touchdown secured in the second quarter when Bufano fumbled and a lineman, breaking through, scooped up the ball and ran 30 yards for a touchdown Duquesne however failed to kick the goal

Duquesne made six first downs to C H S s two in the first half and had the ball in Connellsville territory most of the time The second half was nip and tuck all the way neither side able to cross the other's goal line and the breaks about even

"Rep" Francis was unable to play on account of injuries and with Danner also out of the game the backfield was weakened so Menefee played a half

"Jim" Strawn played a good game both on the offense and defence and made a pretty 35 yard run on an intercepted forward pass in the last quarter but was unable to carry the ball over for a touchdown

There was no individual stars, every man playing a hard game, and but for Bufano's fluke the game would have ended 0-0

Duquesne was penalized three times for offside plays and tripping When the final whistle blew Connellsville had the ball on the Duquesne 20-yard line.

A large crowd was on hand to see the closing game and everyone was well satisfied with the showing the C H. S. gridders made.

The line-up:

Duquesne		C. H. S.

THE "BLUES" Caused by Acid-Stomach

Millions of people who worry, are despondent, have spells of mental depression, feel blue and are often melancholy, believe that these conditions are due to outside influences over which they have little or no control Vastly always, however, they can be traced to an internal source—acid-stomach. Nor is it to be wondered at. Acid-stomach beginning with such well defined symptoms as indigestion, belching, heartburn, bloat, etc., will, if left unchecked, in time affect the nerves directly or other of the vital organs. The nervous system becomes deranged. Digestion suffers. The blood is impoverished. Health and strength are undermined. The victim of acid-stomach, although he may not know the cause of his ailments, feels his hope, courage, ambition and energy slipping. And truly, he is sick—sick world might to the man or woman who has acid-stomach!

Get rid of acid-stomach! Don't let acid-stomach keep you from getting back your health, make you grouchy, cause you to be a victim of the "blues" and gloomy thoughts. There is a marvelous medicine recently called EATONIC that brings the stomach quick relief from your stomach troubles—puts your stomach in right—puts it in strong, good sweet and comfortable. He soon can get back your strength, vigor, vitality, cheerfulness and good cheer. So many thousands of sufferers have used EATONIC with such marvelously helpful results that we are sure you will feel the same way if you will just give it a trial. Get a big 50 cent box of EATONIC—the good medicine that gives you the help it has to many thousands of others. THE COW PUNCHER

By ROBERT J. C. STEAD

Author of "Kitchener, and Other Poems."

Illustrations by ERWIN MYERS

Copyright by Harper & Brothers

"Oh, I'm sure you can," she returned. "It's all over Irene and that—that—I will say it—that cow puncher. To think it should have come to this! Mr. Conward, you are not a mother, so you can't understand. Ungrateful girl! But I blame him. And the doctor. I never wanted him to come West. It was that fool trip, in that fool motor—"

Conward smiled to himself over her unaccustomed violence. Mrs. Hardy must be deeply moved when she forgot to be correct. He had readily missed the occasion of her distress needed no words from Mrs. Hardy to tell him that Irene and Dave were engaged. He had expected it for some time, and the information was not altogether distasteful to him. He had come somewhat under the spell of Irene's attractiveness, but he had no deep attachment for her. He was not aware that he had ever had an abiding attachment for any woman. Attachments were things which he put on and off as readily as a change of clothes. He planned to hit Dave through Irene, but he planned that when he struck it should be a death blow. Their engagement would lend a sharper edge to his shaft.

It may as well be set down that for Mrs. Hardy Conward had no regard whatever. Even while he shaped soft words for her ear he held her in contempt. To him she was merely a silly old woman.

From the day he had first seen Mrs. Hardy his attitude toward her had been one of subtle flattery, partly because it pleased his whim and partly on that same day he had seen Irene, and he was shrewd enough to know that his approach to the girl's affections must be made by way of the acquaintanceship which he would establish under the guise of friendship for her mother. Since his trouble with Dave Conward had a double purpose in developing that acquaintanceship. He had no compunctions as to his method of attack. While Dave was manfully laying siege to the front gate Conward proposed to burglarize the home through that back door of family intimacy. And now that Dave seemed to have won the prize Conward realized that his own position was more secure than ever. Had he not been called in consultation by the girl's mother? Were not the inner affairs of the family now laid open before him? Did not his position as mother's adviser permit him to assume toward Irene an attitude which, in a sense, was more intimate than even Dave's could be? He turned these matters over quickly in his mind and congratulated himself upon the wisdom of his tactics.

"It's very dreadful," Mrs. Hardy was saying, between dabbings of her perfumed handkerchief at eyes that bore witness to the genuineness of her distress. "Irene is not an ordinary girl. She has in her qualities that justified me in hoping that—that she would do—very different from this. Need I conceal from you, Mr. Conward—from you, of all men—what have been my hopes for Irene?"

Conward's heart leaped at the confession. He had secretly entertained some doubt as to Mrs. Hardy's purpose in opening her home to him as she had done; absurd as the hypothesis seemed, still there was the hypothesis that Mrs. Hardy saw in Conward a possible comfort to her declining days. He had no doubt that her vanity was equal to that supposition, but he had done her less than justice in supposing that she had any directly personal ambitions. Her ambitions were for Irene. She had hoped that, by bringing Conward into the house, by bringing Irene under the influence of a close family acquaintanceship with him, that young lady might be led to see the folly of the road she was choosing. She had hoped that he would be the successful suitor for Irene. And Conward's heart leaped at the confession.

"I suppose I need not conceal from you," he answered, "that my hopes have been. It is reasonably safe to judge a daughter by her mother, and by that standard Irene is one of the most adorable of young women."

"I have been called attractive in my day," confessed Mrs. Hardy, warming at once to his flattery.

"Have been?" said Conward. "Say rather you are. If I had not been rendered, perhaps, a little partial by my admiration of Irene,—well, one can scarcely give his heart in two places, you know. And my deep regard for you, Mrs. Hardy—my desire that you shall be spared this—ah—threatened humiliation, will justify me in using heroic measures to bring this unfortunate affair to a close. You may trust me, Mrs. Hardy. Irene is—you will forgive me, Mrs. Hardy, but Irene is, if I may say it, somewhat headstrong. She is—"

"She is her father over again," Mrs. Hardy interrupted. "I told him he should not attempt that crazy trip of his without me along, but he would go. And this is what he has brought upon me, and he not here to share it."

Mrs. Hardy's tone conveyed very plainly her grievance over the doctor's behavior in evading the consequences of the situation which his headstrong folly had created.

"She is set in her own mind," Conward continued. "We must not openly oppose her. We must adopt other tactics."

"You are very clever," said Mrs. Hardy. "You have been a student of human nature."

Conward smiled pleasurably. Little as he valued Mrs. Hardy's opinion, her words of praise fell very gratefully upon him. Flatterers are seldom proof against their own poison.

"Yes, I have studied human nature," he admitted. "The most interesting—and the most profitable—of all studies. And I know that young couples in love are not governed by the ordinary laws of reason. That is why it is useless to argue with Irene—sensible girl though she is—on a subject like this. We must reach her some other way."

"The way that occurs to me is to create distrust. Love is either absurdly trustful or absurdly suspicious. There is no middle course, no balanced judgment. In the trustfulness of love little virtues are magnified to angelic qualities, and vices are quite unseen. But change that trust to suspicion, and a hidden, sinister meaning is found behind the simplest word or act. We must plan two campaigns. One, which I have already suggested, and one, if that should fail, to cause Elden to distrust Irene—No, no," he said, raising his hand toward Mrs. Hardy, who had started from her seat, "there must be no vestige of reason, except that the end justifies the means. It is a case of saving Irene, even if we must pain her—and you—in the saving."

"It's very dreadful," Mrs. Hardy repeated. "But you are very thorough; you leave nothing to chance. I suppose that is the way with all big business men."

"You can trust me," Conward assured her. "There is no time to be lost, and I must plan my campaigns at once."

When Run-down

Philadelphia, Pa.:—"Dr. Pierce's Favorite Prescription is the best tonic I have ever known for women. I was in very delicate health in my early married life. Then one day my husband brought me home a bottle of 'Favorite Prescription' and urged me to take it. I found strength and relief in the first bottle and kept taking it until I was in perfect health. For years afterwards I depended upon the 'Prescription' to give me strength during expectancy and there was no repetition of my earlier experience. I am so grateful for what Dr. Pierce's Favorite Prescription has done for me that I am sending this testimonial to be published wherever it will do the most good."—MRS. MARY BUSHEY, 1827 E. For years I had been suffering and found no relief until I used Dr. Pierce's medicines. I began with the 'Golden Medical Discovery' and also the 'Favorite Prescription,' then the 'Pellets.' I feel now like a different woman."—MRS. FRANK H. RAY, 9 Ohio St.

Christmas Kerchiefs

Snowy white of finest linen from Ireland and France, embroidered in the Madiera Islands, trimmed with Armenian laces—the whole world seems to have joined in making the 1919 handkerchiefs the daintiest, prettiest ever, for many are imported from far off lands.

Delicate colors appear in the corner decorations on a number of styles and there are quite a few of colored silks.

In days of old, when knights were bold, ladies' fair were fain to bestow their handkerchief upon their favored warriors who carried it as a symbol of their sweethearts' love and trust, but, in those days it was just a tiny 'kerchief only a few inches square.

Nowadays, milady carries a much more practical handkerchief, although it can be as delicate and beautiful as she wishes.

Any knight of 1920 would be proud to wear over his heart these kerchiefs we are showing, if it were bestowed by his "Ladye Faire."

Boxed, three to a box, 59c up.

REGION DOING ITS BEST TO MEET HEAVIER CALLS FOR ITS PRODUCT

Slowing Down and Shortage of Workers Acts as Deterring Factor.

PREPARED FOR ANY SHOCK

Washington May Give In in Its Efforts to Meet Coal Strike Situation, But Scarcely Believed Order Will Be Issued to Stop Making Beehive Coke.

From The Weekly Courier.

In order to meet the continuing and increasing demand for coke the operators of the Connellsville region are doing the most and the best they can. Earnest and well directed as their efforts are they are still unable to do all that consumers of coke would very much like to see them do. With the resumption and larger operation of furnaces as the steel strike loses more and more of its force, and the activity of some consuming interests in augmenting their depleted coke stocks, the call for coke shows no abatement. On the contrary it is even more [illegible]

The fact that furnaces operating by-product ovens have been deprived of coal under the revived regulations of the Fuel Administration has brought a number of them into the beehive coke market which otherwise would make no demand upon the Connellsville region except for coal as the raw material for making their own coke. This and the requisitions under contracts now in force, together with the spot demand, is taking coke faster than the oven plants of the region, with their present forces, can make it.

The actual shortage of men, principally miners at some plants, and the somewhat easy habits of work others have fallen into, have limited coke production within comparatively narrow limits, in view of the ability of the market to absorb it. The merchant operators continue to add to the number of ovens in active use but these additions have, on the whole, been confined to a few operations rather than distributed generally over the region. Production fell over very considerably—22,000 tons, in fact—but it was wholly at furnace oven plants. Merchant plants made a gain of 2,400 tons.

While the region is prepared to sustain almost any shock the industry may as the consequence of any vagary that may seize the Washington authorities now striving rather blindly to meet the coal strike situation, it is scarcely expected that so drastic a measure as stopping the manufacture of beehive coke will be resorted to, as latest dispatches indicate is in contemplation. Such a measure would result in such a chaotic condition in the iron and steel industry the belief is current that, even if contemplated, wiser counsel will prevail and some other method of curtailing coal consumption will be adopted instead.

The near approach of Thanksgiving, one of the holidays which is usually very generally observed in the region, has had a slowing down effect upon operation notwithstanding the efforts made to boost production to carry over the lay-off day. A similar slow return to normal following Thanksgiving is anticipated, hence the prospect is by no means encouraging, as the operators view it. Other operating conditions have been good. Cars have been in plentiful supply and movement of them without interruption.

Estimated production of coke for the week ending Saturday, November 22, was 231,304 tons, contributed by the two districts as follows: Connellsville, 137,704, a decrease of 22,757 tons; Lower Connellsville, 93,600, an increase of 137 tons, or a net decrease of 22,620 tons.

By interests the production was: Furnace, 135,194, a decrease of 25,030 tons; merchant, 96,110, a gain of 2,410 tons.

A net gain of 120 ovens was made in the active list. At furnace plants 19 were blown out as against 139 fired up at merchant plants. The principal increases were: Garwood, 24; Katherine, 10; Shamrock, 55; Washingtons, 50.

THANKSGIVING

Unusual Reasons for Thanksgiving in 1919.

There are many reasons why this year, 1919, has unusual reasons for thanksgiving. The country is prosperous. The agricultural products are abundant and bring a large price on the average.
